Graduated, 2018

7.04 CGPA

First Class

Career Highlights

Software developers are the creative minds behind computer programs. Some develop them on a computer or another device. Others develop the underlying systems that run the devices or that control networks.

As a Software developer, I typically do the following:

- Analyze users' needs and then design, test, and develop software to meet those needs
- Create a variety of models and diagrams the software code needed for an application
- Ensure that a program continues to function normally through software maintenance and testing
- Document aspects of an application or system as a reference for future maintenance and upgrade

Skills

- | | | |
|-----------|--------------|----------|
| • Laravel | • JavaScript | • HTML |
| • PHP | • AJAX | • CSS |
| • SQL | • jQuery | • Vue JS |
